# Annual acknowledgement of manuscript reviewers

José M Belizán<sup>1\*</sup> and Natasha Salaria<sup>2</sup>

## Contributing Reviewers

The editor of *Reproductive Health* would like to extend a sincere thank you to all our valued reviewers listed below who contributed to the journal in Volume 10 (2013). Without the co-operation and collaboration of peer reviewers, these manuscripts would remain static in a submission system with high quality articles unpublished and inaccessible to the public on a global scale. We are very pleased to have a diverse range of reviewers from high, middle and low income countries, contributing to the dissemination of research findings in an open access journal. Please accept our deepest thanks for your knowledge, time and continuing efforts.
