

REVIEWER ACKNOWLEDGEMENT

Open Access

Acknowledgement of manuscript reviewers 2014

José M Belizán^{1*} and Sunni Mumford^{2*}

Contributing reviewers

The editors of *Reproductive Health* would like to extend a sincere thank you to all our valued reviewers listed below who contributed to the journal in Volume 11 (2014). The journal has grown 63% in submissions and 43% in publications compared to 2013 and therefore the co-operation and dedicated time of peer reviewers is increasingly essential in order to move these manuscripts through the submission system so high quality research does not remain static and unpublished. We are very pleased to have a diverse range of reviewers from high, middle and low income countries, contributing to the dissemination of research findings in an open access journal. Please accept our sincerest and deepest thanks for your knowledge, time and continuing efforts.
