After publication of this article [1], the authors reported three adjustments:

- In Table 1, second column, the percentage of travelers from the Republic of Ireland should be "90%" instead of "98%". The n (65) is correct.
- In Table 3, fourth column, the first "Prefer not to answer/no response" row should reflect the sum of the second and third columns, and needs to be "5(5%)" instead of "1(1%)".
- In Table 4, second column, there was an extraneous "0" in the "Cost of abortion procedure"-part after "I did not have to pay for my abortion". This "0" should be removed.

The original article [1] has been updated.
